# leef<sup>TM</sup> PRO

## microSD<sup>TM</sup> / SD<sup>TM</sup> Cards

Leef Pro Ultra High Speed Cards are optimized to capture HD video and professional grade photos on the latest mobile phones and digital cameras. Developed with a processing speed of 300X – 4 times faster than standard cards – Leef Pro cards read and write data up to 45 MB per second in 4-bit transfer mode.

Leef continues to create innovative products for mobile phones and cameras – products that people want to own.
